

# STAR *of* GREECE

PORT WILLUNGA  SOUTH AUSTRALIA

Built in Belfast in 1868, the three masted iron ship, Star of Greece, ran into a violent storm off Port Willunga in the early hours of July 13, 1888. She was a regular visitor to Adelaide and bound for England with her cargo of wheat when disaster struck. Some discrepancy exists in the actual number of lives lost, but most historians conclude that at least 17 perished.
